Algebra Plus Summer Academy 2015

Testimonial

“After only 5 weeks, my child demonstrated increased self-confidence, reported improvement in areas of math that he was weak in and was actually excited about going to college!”

PROMOTING THE LEARNING OF ADVANCED MATHEMATICS IN URBAN SCHOOLS

July 6, 2015 - August 7, 2015

Monday - Friday: 8:30am-4:00pm
Northeastern University, Boston, MA

HELPS STUDENTS:

- Strengthen math skills through review and enrichment
- Gain confidence in their ability to learn new material
- Discover new interests and talents
- Create a personal plan for pursuing a college education
- Increase their resiliency to persist toward achieving lifelong goals

Location

Northeastern University campus
MBTA T Stations nearby:
Ruggles Station (Orange Line) or Northeastern Station (Green Line)

Ages

MathPOWER's Summer Academy is open to students entering 6th, 7th, 8th, 9th and 10th grades in Fall 2015.

$705 for 5 weeks of instruction, enrichment and recreation

**WE OFFER SIGNIFICANT FINANCIAL ASSISTANCE TO FAMILIES WHO QUALIFY**

2011 Social Innovation Award

The MathPOWER Algebra Plus Academy is a collaboration of MathPOWER & Northeastern University
MathPOWER Algebra Plus Summer Academy Program

July 6, 2015 - August 7, 2015
Monday - Friday, 8:30am-4:00pm
Northeastern University, Boston, MA

The Academy provides 5 weeks of instruction, combining hands-on learning with practical methods for doing everyday math.

Sixth Grade Readiness
For students entering 6th grade in the fall
Make sure you are ready for middle school! Instruction will focus on problem-solving strategies for multiplication and division and will provide you with more practice in understanding place value. You will also get a head start for next year through a preview of skills necessary for 6th grade success!

Seventh Grade Readiness
For students entering 7th grade in the fall
Do you know how to change fractions to decimals? Can you find the percent of a number? Our classes will solidify these 6th grade concepts and provide you with efficient ways of solving problems. You will also receive instruction in the pre-algebra concepts covered in 7th grade.

Seventh Grade ~ Algebra I Readiness
Are you interested in enrolling in Algebra I in 8th grade? This summer you can improve your understanding of the major math concepts, including linear relationships and properties of numbers, that you will need to know by the end of the 7th grade in order to qualify for Algebra I in the 8th grade within the Boston Public Schools. (Enrollment limited to students who plan to take Algebra I in 8th grade.)

Eighth Grade Readiness
For students entering 8th grade in the fall
Can you use variables? Key algebra concepts will be explored using a hands-on approach. A review of key 7th grade concepts will prepare you for formulas and mathematical models used in regular 8th grade math.

Ninth/Tenth Grade Readiness
For students entering 9th / 10th grade in the fall
The major concepts and skills of middle school and/or algebra will be reviewed as a basis for preparing you for 9th/10th grade. Depending on your school experience, you will spend time learning algebra, algebra II or geometry necessary for success in high school.

Enrichment & Recreation
You can choose from a range of clubs and sports activities in the afternoons after lunch. Clubs plan weekly trips in the Greater Boston area, including preparing budgets to support your travels and admission costs.

Fee**
The fee is $705.00 for 5 weeks. A nonrefundable $100.00 deposit is applied to your tuition. The fee includes all classroom supplies, snacks, admission fees and travel costs for afternoon events. If students qualify for a free lunch and submit the application on time, lunch will be provided. Otherwise, they will have to bring a lunch each day. There are no provisions for purchasing lunch.
